The name ARIS and all SAG Aris GmbH product names are either trademarks or registered trademarks of SAG Aris GmbH and/or its subsidiaries and/or its affiliates and/or their licensors. Other company and product names mentioned herein may be trademarks of their respective owners.

The Software may contain or be distributed with certain commercial third party components (“Third Party Components”), which may be subject to special license terms and conditions (“Third Party Terms”) located at https://aris.com/terms.

Third Party Terms include important licensing and warranty information and disclaimers of third party licensors. For the avoidance of doubt, if Customer uses the Software in accordance with the Documentation, the Third Party Terms do not restrict the rights granted under this Agreement. In the event that a third party manufacturer no longer provides active support for any Third Party Component, Supplier will use commercially reasonable efforts to respond to any issues with the Software related to the Third Party Components.

Use, reproduction, transfer, publication or disclosure is prohibited except as specifically provided for in your License Agreement with SAG Aris GmbH and/or its subsidiaries and/or its affiliates and/or their licensors.

Possible entries and remarks [6]

3. Compatibilites - Possible entries and remarks

Possible entries

Web Service= Modeling content or data can be fed into MashZone via Web Service.

Repository = Both products can be used on a common repository and/or can share modeling content and data.

Sync = Modeling content can be published via Sync.

Import = Data can be imported from product to the other. Link = Assets can be linked from product of other product.

Remarks

1 = With ARIS Connect Server EP Aware, ARIS 10 includes a full dashboarding solution. The integration of MashZone NextGen is not necessary anymore.

2 = Counts only for ARIS Connect Server.

3 = UML models cannot be shared with ARIS Architect or ARIS Designer.

4 = Interoperability is established with ARIS Alfabet Interoperability license; not supported for ARIS Connect Viewer.

5 = For system requirements see document "ARIS System Requirements"

7. Support and legal information

This section provides you with some general information regarding product support and legal aspects.

7.1. Documentation scope

The information provided describes the settings and features as they were at the time of publishing. Since documentation and software are subject to different production cycles, the description of settings and features may differ from actual settings and features. Information about discrepancies is provided in the Release Notes that accompany the product. Please read the Release Notes and take the information into account when installing, setting up, and using the product.

If you want to install technical and/or business system functions without using the consulting services provided by SAG ARIS GmbH, you require extensive knowledge of the system to be installed, its intended purpose, the target systems, and their various dependencies. Due to the number of platforms and interdependent hardware and software configurations, we can describe only specific installations. It is not possible to document all settings and dependencies.

When you combine various technologies, please observe the manufacturers' instructions, particularly announcements concerning releases on their Internet pages. We cannot guarantee proper functioning and installation of approved third-party systems and do not support them. Always follow the instructions provided in the installation manuals of the relevant manufacturers. If you experience difficulties, please contact the relevant manufacturer.

If you need help installing third-party systems, contact your local ARIS sales organization. Please note that this type of manufacturer-specific or customer-specific customization is not covered by the standard ARIS software maintenance agreement and can be performed only on special request and agreement.

7.2. Support

Product support

We provide support for ARIS products to all customers with a valid support contract.

Information on product version availability and support, as well as sustained support dates, is available at ARIS Community.

Contact our Global Support services at ARIS Community to raise and update support incidents, or post ideas and feature requests.

Community

Register with ARIS Community to download products, updates and fixes, find expert information, and interact with other users.

Documentation

For information on how to use and activate products and for other technical support questions, visit the ARIS Documentation website.

If you want to give feedback on any documentation topic, write to documentation@aris.com.

7.3. Legal notices
